FOR THE

GRADUATION CUTTING MASTERCCLASS SERIES

CLIP JOINT[™]
EDUCATION

Clip Joint Education's Advanced Classes are designed for qualified hairdressers who are ready to push creative boundaries and elevate technical precision. Delivered in curated 4-week collections, each series focuses on a cutting concept using a technical and creative approach —culminating in a live model session to showcase transformation in real-time.

GRADUATION CUTTING MASTERCLASS SERIES

This collection explores volume through the use of graduation. Exploring bespoke disconnection and internal and external graduation. Expect hands-on mastery in shape building, weight control, and enhancing and controlling natural texture—designed specifically with short hair work in mind. Through a progressive series of looks, you'll refine your ability to craft contemporary, feminine silhouettes that enhance bone structure, movement, and flow. From precision sectioning to deliberate disconnection, this series challenges participants to think sculpturally and work with intention, all while customising for suitability and style longevity on short-length clients.
